## VISUAL FIELDS EXAMINATION

A new highly sophisticated computerized instrument now allows us to provide a more thorough medical analysis of your eyes. Our new HUMPHREY VISUAL FIELD ANALYZER electronically measures retinal function and sensitivity to light. This measurement can assist us in the early detection of many disorders, including brain tumors, glaucoma, diabetic retinopathy, and retinal detachments.

We strongly recommend that all our patients receive the screening version of this exam. It is especially important for people who have:

- 1) Headaches
- 2) See spots or flashes of light
- 3) A history of Diabetes
- 4) A history of high blood pressure
- 5) Circulatory problems
- 6) A strong eyeglass prescription
- 7) Reached age 35

There is an additional charge of \$10.00 for the screening exam.

Please check the appropriate line below and sign at the bottom.
